**George Young Is Enrolled At U Of F**

Realtor George Young, Real Estate, is in Gainesville taking a real estate appraisal course at University of Florida.

Young left Sunday night to enroll in the two week study program.

Luther Jones, publisher of the Belle Glade Herald, is in Belle Glade Memorial Hospital recovering from a heart attack suffered Saturday afternoon, May 18. Mr. Jones was enroute to West Palm Beach about 3:30 p. m. to attend a Burns political press conference, travelling alone, when the seizure hit him as he neared state road 7. After resting a bit at that point, he headed back toward Belle Glade and stopped at Royal Palm Beach Inn to rest.

When another seizure prompted the village manager who was with him to call the Royal Palm Beach police to rush him to Belle Glade Hospital, they radioed ahead and his physician was at the hospital when he arrived about 4:30 to give him immediate treatment.

"Round-the-clock nursing care, no visitors, and every effort extended by the doctors and staff at the hospital are being followed to assure his safe recovery. Mr. Jones is improving daily and his nurses report he complains mainly that he is "wearing the bed out."

The many inquiries from his host of friends, their concern and every kindness extended are appreciated deeply by his immediate family and the McMillan family as well.

We know he will welcome the day when the doctor allows him the company of his many associates he so much enjoys.

**"Bud" McMillan Back In Hospital**

"Bud" McMillan, who has made a host of friends in the area during his many years as manager of Seminole Supply Company, was re-admitted to Belle Glade Memorial Hospital Tuesday for further treatment resulting from an illness a week earlier.

Bud had entered the hospital May 11 and released May 18, but as an extra precaution was re-admitted Tuesday May 19.

Opposition to the proposed formation of an Okeechobee Waterway Navigation District developed at a meeting held last Friday when it was pointed out Palm Beach County was to bear the pay load for the five-county district operation while the waterway is not through our county's land.

In Clewiston, entertainment centered around the Elks Club where an Everglades dinner featuring barbecued chicken was served.

An arrival party was held in Fort Myers on Sunday for the group.

Last year Belle Glade Chamber of Commerce was successful in arranging for the Saturday night stop-over to be at Belle Glade.

This time the second and third fleets stopped over at Belle Glade Port and enjoyed free refreshments served by members of Belle Glade Chamber, in order to allow time for the larger yachts to dock in Clewiston.

These annual events, sponsored by the Okeechobee Waterway Association, have done a great deal to attract attention to the Waterway as well as the entire Glades area. Chamber of Commerce representatives from Belle Glade and Pahokee, as well as other communities sur-

## A Thought From The Bible

### What Kind Of Freedom Do We Really Want?

"Ye shall know the truth and the truth shall make you free" John 8:32

Khrushchev has been quoted as saying, in the course of his tour of Egypt, that he is in favor of a "free" Africa — by which, no doubt, he means free from "colonialism."

So far as has been reported, he has said nothing recently about a free Hungary. Or, for that matter, a free East Germany, whose citizens would be free to go into West Berlin and back at will.

If Khrushchev is in favor of freedom for Africans, why is he not equally in favor of freedom for those under Communist rule? Many brave people have risked death in escaping from Communist-dominated areas. Many have lost their lives in the attempt.

The real question is: what do we want to be free from? In spiritual terms, there are some of us who want to be free from any tie to God which would restrict us from doing as we please. We want to be free to sin — free to turn our backs on the Bible — free to reject the Bible as a guide by which we should live.

We can have this freedom. But freedom to live apart from God becomes something else than real freedom — because, as Jesus said, "Whoever committeth sin is the servant of sin."

The young person who — in the name of freedom — commits an immoral or dishonest act, soon finds that he is no longer free, but caught in a web of slavery to sin.

But Jesus said, "Ye shall know the truth and the truth shall make you free." What truth is it which makes men free?

It is this truth — "the wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord."

We can be free from the law of sin and death, if we will accept the freely offered gift of God.

## 10 Commandments For Youth

1. Put the Church and spiritual values first.
2. Respect and obey your father and mother.
3. Beware of the sins of the disposition.
4. Free from youthful lusts.
5. Choose a Christian mate.
6. Select a life's work where you can use your talents to the fullest in service to God and back at will.
7. Determine now to have a real Christian home.
8. Develop every talent you possess to glorify God.
9. Be a good steward of your time, talent and money.
10. Always keep your eye on Heaven.

## STRONG CHURCHES.. MAKE STRONG COMMUNITIES

## A MATTER OF DEGREE

THE CHURCH FOR ALL  
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual power. In a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Doctor? Lawyer? Merchant? Already Bobbie's parents are planning for his future. They're saving to give him the best education obtainable because they want him to be happy and successful... a son to be proud of.

It would be splendid if a good education automatically led to happiness and success, but unfortunately it doesn't. Many well-educated men and women have failed utterly when called to live a stable and worthwhile life, because they lacked the strength of character that would have sustained them.

There is no better training ground for the building of character than the Christian Church. There children are encouraged to follow a way of life that will not fail them, and to respect themselves and their fellows.

Give your child every chance to succeed. Make sure that his education includes a thorough knowledge of the time-tested Christian truth.

About 150 guests were greeted by Mr. and Mrs. West and asked to sign a guest book by Mrs. J. W. Mosley, Jr., a cousin of the family.

The dining table was set with a gold thread cloth and was centered with a gold candelabra arranged with gold candles, gold carnations, orchids and ferns.

The large tiered wedding cake, decorated with "50th" in gold lettering and topped with a gold candelabra, graced one end of the table while the punch bowl with gold and white punch was at the opposite end. Gold compotes contained nuts and mints on the serving table. Also on the table were hot canapés, consisting of tiny ham biscuits, chicken salad tarts, sweet delicacies of date nut balls and Kelakays. Gold and white mints had the names of Effie and Isaac, 1914, and tiny wedding bells tipped onto them. One gold bell with purple cattleya orchid was on the dining room wall over the buffet.

Mrs. Irving Zumped and Mrs. Joe Cherry presided at the punch bowl and Miss Ruth West cut the cake. Mrs. Walter Schlechter, Sr., was in charge of serving assisted by Mrs. Harold Royals, Mrs. John Schlechter, Mrs. Don Sellers, and Mrs. Russell Fox.

Mrs. Walter Schlechter wore a lavender cattleya orchid while those assisting her wore corsages of a gold bell with a gold strap leaf vanda orchid as a clapper.

Throughout the house there were beautiful yellow and gold floral arrangements. The centerpiece in the living room was a gold money tree consisting of a Manzanita branch with an arrangement of yellow roses at the base and \$50 silver dollars wrapped in gold.

After the wedding and a short honeymoon the couple made their home in Nokesville for a few years. The Wests were among the early settlers in the Glades area. They arrived in October, 1920 with Mr. West's brother, Roy, Mr. J. R. Leatherman and bought land at Chosen and sold lots to the Wests and to Walter Hooker. Therefore, Leatherman was responsible for their coming to the Glades.

Then Mr. West was persuaded to open a general merchandise store since there was no place in this area to buy food supplies.

Mayor Haydon Burns and Mrs. Burns beam at their gala reception at the Pennsylvania Hotel in West Palm Beach Saturday. The Jacksonville Mayor was greeted at Palm Beach International Airport by various Mayors and Vice-Mayors of Palm Beach County including Tom Jones, Mayor of Clewiston, and Duncan Padgett, Mayor of Pahokee.

The front running candidate for Governor of Florida, Mayor Haydon Burns of Jacksonville, and a whole troupe of "Burns Bilizers" visited Palm Beach County Saturday for an active, exciting day of campaigning, which started with a huge reception at the Pennsylvania Hotel in West Palm Beach.

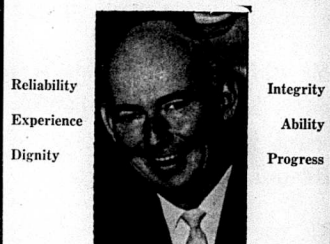

Burns was greeted at Palm Beach International Airport, upon his arrival, by several Mayors and Vice-Mayors of Palm Beach County including Clewiston Mayor Tom Jones and Pahokee Mayor Duncan Padgett.

At the Pennsylvania Hotel reception, Burns told the some 300 persons assembled that he will work for, if elected, the completion of I-R 95 from the Georgia line down the east coast of Florida into the heart of downtown Miami. The man who has made Jacksonville the second fastest growing city in the country repeated his stand on the controversial Civil Rights Bill. "I am not a radical and I do not seek support or radical elements on either side of the racial issue. I respect every man in the same manner as he shows respect for himself. My views on civil rights are the same as those of Senators Smathers and Holland," Burns said.

Burns thanked former State Sen. Fred O. (Bud) Dickinson, defeated in the first primary, for his support in the runoff and asked the Dickinson Palm Beach county organization to work for a Burns victory May 26.

Whistler is indeed one of the greatest masters of painting in my opinion. And I may add that in this opinion Mr. Whistler himself entirely concurs. —Oscar Wilde.

**AS YOUR SHERIFF, RED TAYLOR WILL:—**

1. Employ trained, seasoned police officers.
2. Provide job security for personnel of the sheriff's office.
3. Maintain an "open door" policy for public and press.
4. Emphasize policing of unincorporated areas.
5. Return the sheriff's "road patrol" to police duties.

## Multi-Million Dollar Sugar Industry Result Of Years Of Experimentation

Reported by Emmett Trammell FFA Student

Are you a coffee drinker? If you are, do you sweeten your coffee? If you do, have you ever stopped to think where your sugar comes from? It just might come from the sugar cane grown and processed in Florida.

The story of sugar, made from sugar cane is a story of man's covered — of empires won and lost.

The origin of sugar cane is lost in antiquity, however it is agreed by historians that on his second voyage in 1493 Columbus brought sugar cane to the island of Santo Domingo from Europe. The great Spanish colonial governor, Menéndez, probably introduced sugar cane to Florida soon after 1565. During the English period in Florida sugar was manufactured on a commercial scale at the New Smyrna Colony between 1767 and 1778. Soon thereafter the settlement fell into ruins after disbanding for lack of support. So, for a period the commercial sugar industry was lost to the state.

There is no recorded history of sugar cane in Florida until after the fall of the New Smyrna Colony for many years. However, it is no doubt that it was grown and sugar manufactured by crude methods during the Early Colonial Period as there are records of cane mills and syrup vats in various places over the state.

During the 1830's Major Robert Gamble, of Tallahassee, moved to Manatee County and erected a Sugar Mill. Fire and the War between the States put an end to this enterprise.

The next attempt at sugar production in Florida was made at St. Cloud in 1855. Some of the Cypress Swamp Land was drained by cutting canals. It was cleared of sawgrass and 110 acres planted in sugar cane. A mill was built and two or three crops were grown and harvested. The plantation was allowed to run down and with the death of the owner the mill was closed in 1866. In 1867 the mill and properties were sold to a Cuban group. They never got the plantation going again and in 1905 the mill was sold to a Mexican group and moved to Mexico.

Spanish attempts were made to develop sugar cane culture in the Everglades until the early 1820's. Because of improper water control, unsuitable cane varieties and cane diseases, they failed.

In 1923 the United States Department of Agriculture established a Cane Breeding Station at Canal Point for development of new varieties to replace the diseased cane from Louisiana. New interest was sparked on the possibilities of the

## Each County Gets \$34,000 Race Check

State Comptroller Ray E. Green said today checks totaling \$34,000 are being mailed to each of the 67 counties as their share of the race track tax fund.

The comptroller said the counties have received a total of \$212,000 thus far this year, which is an increase of \$19,000 over payment for the same period during the previous fiscal year.

The payments to date also total the total payments of \$206,800 received by the counties during 1962-63, which was a record year. Two more distributions are to be made, Green said. One will be June 5, and the final one will be June 30.

## Liquor Hours Hold The Line

At a prearranged meeting the City Commission listened to presentation of arguments in favor of allowing the same opening hours of sale of alcoholic beverages as that formerly agreed by the County for the Glades. An exception was agreed on by the County for the adjusted hours — no sale after three A. M. Sunday until 7 A. M. Monday morning.

A committee representing the Ministerial Association was also heard against any changes. The motion to grant the new hours failed by a vote of 2 to 2.

Commissioner January was not present, as he is in a hospital in Lakeland.

## State's Tax Income Up 20.72 Over '62

Sales and use tax collections for April, based on March figures, totaled \$32,901,848, or 20.72 per cent, over the same period last fiscal year, said April collections for the five per cent wholesale sporting goods tax totaled \$189,574. Total collections for the current fiscal year are \$727,150.

## Mrs. Mary Hoard Begins Okeechobee Waterway Membership Campaign

Mr. Paul Franklin, President of the Okeechobee Waterway Association, today announced that the board of directors has approved the appointment of Mrs. Mary Hoard, Fort Myers, as the membership chairman of the association.

This is a new office created by the association in order to increase memberships and interests in its goals and objectives, on a state-wide basis. She will coordinate the membership efforts of the 10 chambers of commerce that form the supporting body of the O. W. A.

The O. W. A. was organized less than two years ago. With its rapid development and growth, activities have expanded greatly, and the board of directors felt it necessary that the Executive secretary, Howard Banuta, have an assistant to help in the membership drive.

Experience is what keeps a man who makes the same mistake twice from admitting it the third time around.

DEVELOPMENT OF FLORIDA THROUGH ITS WATERWAYS engages the efforts of existing and proposed organizations and committees throughout the state. Accomplishments since 1928 have brought waterways to a state of completion that cry for improvement in existing inter-state channels so that complete utilization can be realized. As shown on the above map existing Waterways from Jacksonville to Ft. Pierce along with authorized channels from Ft. Pierce to Stuart join the Okeechobee Waterway across state to Ft. Myers and the gulf. Barge operators are all for creating a navigable channel stretching west through the St. Lucie Canal from Stuart to Lake Okechobee. Ized channels from Ft. Pierce to Stuart joining the Okeechobee Waterway, enlarging openings, building bridges and making general improvements. Who will pay what of the cost involved brought a veto at last Friday's meeting in Stuart for a proposed five-county Okeechobee Waterway Drainage District, when it was pointed out that Palm Beach County would pay 10 times as much as others when the Waterway is not through Palm Beach County land.

of the Florida Power & Light Co.

The hike to the dike took place early in the month. The Troop left about 8:30 a. m. and rested a couple of times on the way, arriving about 11. The patrol decided what they were to do. One patrol washed peppers, another cut it, our patrol fried the meat for the goulash, after they opened the spaghetti and poured it on the meat. After lunch games were played until 3 o'clock. Mrs. Wolf came then and taught the group how to tie the knots. At five we went to get wood for the fire, came back roasted hot dogs. Following supper, marshmallows were roasted and we watched the sunset and came home.

On May 13 a visit to the Police Station was most interesting. The tour was of the kitchen, the jail and cells. A picture was taken of the Troop and we were told some things about fingerprints. One of the girls, Christina, de la Vega, was asked to put her hand on a cabinet and the policeman gave her finger prints to use.

The cooking classes we have taken for the past three weeks ended with an oral quiz. Tusa and those who pass will get their cooking badges. Reporters — Lucy Garcia and Margarita Riva.

The American Irish share the spotlight with two books which border on the whodunit, this week. THE SPY WHO CAME IN FROM THE COLD has won glory leading the Best Seller's List and this merits publicity with the Sons of Erin, who now list a president, and another martyr, on their rolls.

The Spy Who Came In From The Cold, Le Carré.

Spy-fiction writers can never rest easy again. That one of their kind can conceive a thoroughly excellent novel has now been proved. It has political import, awful timeliness, and a tense situation for location. Most important, it has a believable, human central figure, not an automaton. Le Carré's most important task is to capture the top spy of East Berlin. Melodramatic as this seems, the plot develops into one as honest as it is thrilling, and that betokens a great deal of honesty.

Le Carré serves a ruthless machine, and the story tells of how he comes to terms with it. The implications touch us all. The Prison Life Of Harris Filmore.

Something of a farce, but pleasant, this is the story of an ex-banker, now serving a term at Audon State Prison. Instead of grey, forbidding walls, he finds a share of contentment, and "security" he never knew as a prosperous, proper suburbanite. Thin, in essence, the story. The embellishments of conversation, and local color are secondary to the theme — life inside, and life outside are both games played according to rules — but the rules inside CAN be kept.

Only one specter strikes terror. Mr. Filmore's being a parole.

The American Irish, Shannon.

The author dedicated this book to his parents, Nora McNamara Shannon, and Patrick Joseph Shannon. If any other credentials are required of a spokesman for the Irish, there are chapter notes for reference.

The Irish have produced writers, poets, dramatists, and teachers all out of proportion to their numbers. As doom was so often a visitor to the island, their character turned inward, creating a national genius which drew on fantasy and the emotions.

They poured into the United States by the thousands during the 19th century, a rural people crowded into the cities, driven by famine. They held onto fam-

ily identity, patterns of speech, a way of looking at the world, and the Catholic religion. They worked hard hours for little pay, and bolstered their faith in the future with lace curtains.

Names stand out in their story: the Carrolls of Maryland, "Boss Tweed," Al Smith, Jim Farley, James Cardinal Gibbons, John L. Sullivan, Eugene O'Neill, Joe McCarthy, and John F. Kennedy. Their colorful contributions are well presented in this book.

## "G. I. Insurance"

M. T. Dixon, Director of the Florida Department of Veterans Affairs, announces today that although veterans of the Korean conflict no longer can earn a dividend by exchanging or converting their RS term insurance policies, Dixon issues this reminder. Korean conflict veterans may still exchange their RS policies for W term policies that costs one-third as much or convert them to any one or six choices of permanent plan insurance.

Dixon estimates that approximately 68,000 veterans of the Korean conflict still hold RS policies. Further information may be obtained at any Veterans County Service office, or by writing Dixon at P. O. Box 1437, St. Petersburg, Fla.

## In Florida... after a swim, beer is a natural

On a hot summer day, a dip in a cool stream can be wonderfully refreshing. Equally refreshing when you're relaxing afterwards with friends is a hearty glass of beer. There's hardly another beverage around that suits what you do for fun as much as beer. Camping, hiking, or just lounging on a lawn chair—beer brings to each just the right touch of extra good living.

Your familiar glass of beer is also a pleasant reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

## STUDENT-WRITTEN

### Future D. C. T. Students Tested

The prospective D. C. T. students for 1964-65 were given tests to determine their working aptitudes on Monday, May 18. The test was administered by Mr. Guernsey, who is the tester and counselor for the Florida State Unemployment Service in this district. Taking up most of the morning classes, this test was quite thorough. It also included a check list for the students' future desires in the field of business.

After the tests are scored and the results returned, Mr. Fortenberry will discuss with the students their desires and their choices for occupations for next year.

At this time thirty students have made application to take D. C. T. for the coming school year.

### My Baby Brother

Written by Dale Spikes at age 13

Six months ago today  
A little angel came our way,  
With big blue eyes and a  
dimpled chin  
Into our hearts he crept right in.

All day long he coos and smiles,  
And uses many cunning wiles,  
To let us know he's happy here;  
And that we too to him are dear.

Each day we're thankful for all the joy  
That came to us with that  
little boy.  
We'll love and cherish and  
guide him right,  
And thank God for him day  
and night.

He's the sweetest baby on this  
great earth;  
We're loved him since his day  
of birth.  
I know that there is not another,  
Like my little baby brother.

### It's Not Going To Be That Bad!

In less than three weeks, we Seniors will don white caps and gowns to end one of the most exciting portions of our lives. Seems odd, doesn't it? Leaving all the things we hold dear and know so well is not going to be an easy task. Perhaps if we really think about what lies ahead it won't seem so bad. When college comes to mind, we think of exams and hard work. But have we ever thought about the football games, dances, and even dorm life? It can really be a blast if we want to make it one! Of course, it's going to be quite different and difficult to adjust at first; but it will be one of the most exciting experiences we'll ever know.

Not only will college life offer new experiences, but the business world is full of new ideas. There will be new people to meet, new things to do, and new places to go. The step from high school into business life is a big one but we can take it with others with determination and confidence.

June 5, 1964 is the date for our "re-birth" into an adult world. Let's meet it with exuberance and let everyone know we're ready to accept any challenge that may come our way.

### Class Play Draws Large Crowds

The senior class play, Full House, drew large crowds last Thursday and Friday nights.

The curtain opened at the scene of the apartment of Mrs. Fleming, a New York socialite, played by Billie Graber. At the time, the apartment was being subtitled to a young couple, Mr. and Mrs. George Howell, who had only been married the day before. Ottilie Howell, portrayed by Robin Thomas, was unable to understand why her husband, John Causey, was called away on a mysterious business trip the day after their wedding. An old maid aunt, played by Julie Abel, didn't help matters at all. Mickey McKee, the young man in the play, was to go home to Sioux City, discovered the stolen jewels, saw her chance for \$1000 reward money, and called the police after hiding the jewels in her parter. Three policemen, Charles Thompson, Eddie Buckner and Lou Betner, arrived at the apartment to restore law and order. Meanwhile, Ottilie had called Mrs. Pembroke, owner of the stolen rubies, played by Kay Williams, to come and claim them. The policemen kept a "full house" when they permitted anyone to come in, but no one to go out. When the owner of the apartment heard her flat had turned into a rendezvous for thieves and cut-throats, immediately returned and threatened to throw them all out. Finally the jewels were returned to their owner, the maid got a kick out of Sioux City, and peace was restored to the Howell household.

All members of the cast and production staff did an excellent job. Mrs. Ned Hill, director of the play, deserves special recognition for her outstanding sacrifice of time and effort.

### Cheerleaders Elected for '64-65 Ram Season

The 1964-65 cheerleaders for the varsity and junior varsity were elected Tuesday, May 12, at the Belle Glade High School Gym.

A group of 14 girls tried out for varsity cheerleaders. Elected to the squad were six juniors: Lynda Long, Yonelle Rogals, Janet Critchfield, Janet Hord, Terry McWhorter, and two sophomores, Sherry Knight and Dee Dee McKisvick. All girls were in last years squad except Terry McWhorter, Beth Livingston, and Janet Hord.

Returning for her second year on the varsity cheerleading squad is Janet Critchfield. Janet was a cheerleader in South Bay for two years and has been a member of the band for four years.

Sherry Knight and Dee Dee McKisvick will both be returning for their second year as a varsity cheerleader. Both girls are sophomores and are in many other school activities. Sherry and Dee Dee gave much support to the Rams this school year.

Terry McWhorter, being an active member in the band for two years and has been a cheerleader for the coming term of 1964-65.

Beth Livingston, who is active in many school activities, will be a cheerleader in the 1964-65 season. Both girls had previous cheerleading experience as a junior, varsity cheerleader when she was in the ninth grade.

Janet Hord, a member of the band for five years and active in all school activities, will be a varsity cheerleader and will give the Rams much happiness.

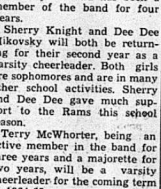

**"B" Team Cheer Squad**  
A total of 38 girls tried out for the junior varsity cheer squad for the coming year of 1964-65. All 38 girls showed a lot of enthusiasm. Elected to the squad were two freshmen: Cecelia Enfinger and Mary Leigh Ameringer, and 4 eighth graders, Margaret Thompson, Kathy Smith, JoAnne Harris, and Susie Rhymes.

The captain of the junior varsity cheerleading squad is Mary Leigh Ameringer. Mary Leigh was a member of last years junior varsity cheer squad and gave good support to the team.

Cecelia Enfinger, also on the cheer squad last year, is active in many school activities. The cheerleaders were elected by a group of six judges. The judges were Miss Hicks, Spanish teacher; Miss McMillan, English teacher; Vera Harrell, physical education teacher at Pahokee; Charles Thompson, and Cecelia Mathis.

The girls were judged on a point system with 60 points the very highest amount of points. They were judged on their cheer, wheel, jumps, timing, rhythm, knowledge of cheers, arm movement, body type, coordination, ending of cheers, starting of cheers, enthusiasm, and general appearance (poise and posture).

The squad will have a two week training period before school begins in preparation of the 1964-65 Rams season.

### Summer Workshop

The 1964 Summer Educational Enrichment Program will include secondary science workshops to be held at Belle Glade High School, Riviera Beach High School, Lake Worth Junior High School and Jupiter High School, from June 15 through July 24, 1964. This project will serve as a challenge to pupils in learning more about the science topics in which they have a keen interest. The activities will offer individual or small group opportunities to participate in science experiments, to gather information through research in textbooks, library books and periodicals and through the use of films, filmstrips and recordings. The Riviera Beach High School workshop will offer one period of experience in advance. The other period will be devoted to junior high school students. Belle Glade High School, Lake Worth Junior High School and Jupiter High School will offer an individualized program which will conform to student requests.

The Belle Glade High School workshop will meet on Tuesdays and Thursdays. A fee of \$50 is required from each student to provide materials needed by participants; also, each student will need to provide materials for his or her individual project. A breakage fee of \$3.00 will be collected from each student participating in a laboratory workshop which requires equipment that is ordinarily replaced at the end of the session. This will be returned at the end of the course if the student has not broken any of the equipment. Complete applications from the parents of the students were due in the office of the principal no later than May 18th.

After a brief presentation of four skills from the senior play awards were presented to many students for their outstanding achievements of the year.

Charles Thompson presented the Beta Club awards to the student in each grade 9-11 with the highest average. In the ninth grade the student to receive the award was Pat Bowen. The tenth grade student was Glen Wolf and the eleventh grader was Lee Anne Berryhill. The Beta Club also presented \$100 to the Industrial Arts Department; Mr. Ward accepted the award.

Mrs. Earwood presented the art award for the most hours work in the art club to Becky Symes. She also announced the names of the two outstanding senior members of the club. They were Merikay Mincey and Claudia Ludlow.

Mrs. Litchfield presented the Betty Crocker Homemakers award to Janice Weitz. Mrs. Litchfield also presented awards to the two outstanding members of the Para Medics Club. The students were Mickey McKee and Kay Campbell.

The Varsity cheerleaders received their letters and presented Miss Bottoms with an appreciation gift. The Junior Varsity cheerleaders also received their letters and gave Miss Williams a gift.

Coach Davis presented the track awards and Coach Thompson and Eddie Buckner received their blankets. The blankets represented the earning of ten letters in the field of sports.

Mr. Morris announced the honor students and then closed the assembly by allowing the seniors to leave first.

### Graduation And Future

Graduation is a magic word that creates all sorts of excitement - The shopping for new clothes, the busy-ness of the opening of gifts, the happy confusion receiving the diploma after twelve long years, and for a short time, a feeling of freedom.

For some students, graduation will be the end to formal education. They either feel that they have learned all there is to know, or that they have no need for further education. To others, however, the diploma is only a stepping stone on the path to a goal.

Motives vary for students seeking advanced education in schools of higher learning. A young woman sometimes pursues a career and an eligible bachelor without even realizing herself where one ambition ends and the other begins. A young man may be satisfied with his intellectual curiosity about science or the arts or dreaming of affluence in the years to come because of his increased earning power.

Thomas Edson never had any formal schooling. Yet no one can say he was uneducated. He, like many people today, received his educated mind while working.

For the teenager whose high school diploma marks the termination of an education, there is no need for the learning process to end. Travel, reading, listening to records, visiting museums and historical landmarks, best asking questions are all a part of learning. An inquiring mind is the most valuable of all assets. "It is only the ignorant who despises education," (Syrus, Circa 42 B. C.).
